MEMORANDUM FOR: Morning Meeting Participants

SUBJECT : DCI Appearance on "Face the Nation"

This week we are sharpening up the Q&A book for the DCI, which is based on coordinated material and reflects your recent contributions to a similar book prepared for the confirmation hearings. I am now asking for additional contributions from all of you, particularly those that reflect recent world developments and media concerns.

In addition, we want to suggest to the DCI two or three positive statements that he might wish to make in the course of the broadcast. An example of a current topic is the breadth of intelligence concerns, beginning with the peace-keeping function, including terrorism, agriculture, economics, etc. Your contributions are solicited both for topics for such positive statements and for specific formulation.

Please let me have your contributions by COB today, 15 March. The book will go to the DDCI for final approval.
